

Freedom Classical Academy Wellness Policy

The Healthy Hunger-Free Kids Act of 2010 directed the USDA to establish science-based nutrition standards for all foods and beverages sold to students in school during the school day. The Smart Snacks Nutrition Standards support efforts by school food service staff, school administrators, teachers, parents, and the school community, who all work together to instill healthy habits in students. The Smart Snacks Nutrition Standards cover all foods sold in schools. This means foods sold during the school day in the following locations, (but not limited to) school stores, vending machines, bake sales, the snack bar, must meet the minimum federal regulations as laid out in the Smart Snacks Nutrition Standards. The intent of these standards is not to limit popular snack items, but instead to make healthier snacks available to students. These snacks must meet common-sense standards for fat, saturated fat, sugar, and sodium, while promoting products that have whole grains, low- fat dairy, fruits, vegetables or protein foods as their main ingredients.
